

Scorpion ATR

Off-Road

On-Road

High Performance

Scorpion ATR is the technological footprint on the ground for extremely versatile and powerful vehicles: thanks to its reinforced structure and very unique tread design Scorpion ATR makes light work of driving these vehicles on rough terrain.

Excellent traction grip on every surface, reduced aquaplaning, top braking efficiency, and the highest resistance to damage, while providing easy comfortable driving on normal roads.

Tread pattern : symmetrical tread design delivers the all-terrain versatility needed with an appealing look and a low noise level
