

# Sensational Sun Ray

**Sun Ray Reference School** > St. Thomas More Primary, Hadfield, Melbourne

> **Contact:** Brian Riley > 0419-592095 > WinWorld Computer Services

featuring the following **exciting** technologies:

- PC's are so 'last' century, **therefore**, move into the 'new' millennium with Web2.0 Internet & Network 'everything' by using SUN Microsystems Sun Ray Virtual Diskless Clients > Sun Ray270 incl., 17" LCD, Sun Ray2
- Solaris10 / Linux Operating System ( x86, x64 & SPARC )
- Gnome Desktop and / or Microsoft Windows XP desktop
- StarOffice8 (Writer, Calc, Presentation, Base, Drawing, HTML modules)  
( MSOffice file compatible, pdf & Flash export, free for Education )
- Intel / AMD & SPARC Multi-CPU/Core Rack-mounted, low power Servers
- MS-Windows / Office applications accessed via Remote Desktop Protocol
- use Gbps & 100Mbps Switched Network & standard cat5/6 UTP cabling
- Audio & Multimedia capable > low Bandwidth requirements < 300Kbps
- Mozilla / Firefox web browser > Flash, Java, Acrobat Reader, Real Player
- Eliminate loss of Data, Virus / Spyware issues @ the desktop
- Zero support required @ the desktop > SUN Desktop Manager
- Install applications once on Server & make available to all users
- DHCP & TCP/IP technology operates on existing LAN infrastructure
- Smart Card capability with Secure Session mobility
- USB ports support Memory Sticks, printers, scanners, keyboard, mouse etc.
- centralized Desktop Application management with SUN Desktop Manager
- Sun Rays have low electrical power requirements, no noise, less heat etc.,
- Open source software easily installed eg. Gimp (like Photoshop), Freemind
- dramatically reduce \$TCO over time > software licences, IT Support, insurance
- less than 30 seconds to 'learn' > power-on > login > launch / use applications
- fast / easy to set up 'pilot' system to test / evaluate Sun Rays > library / lab etc.
- map Sun & Microsoft Windows folders using Samba or Microsoft Services for Unix

Big throughput, small size.  
Save on power and cooling.

Buy it »

» Try it

- as Sun Microsystems has been saying for 25 years “**the network is the computer**”
