

Australian Plants Society – S.A. Region, Inc.
Autumn Plant Sale, Saturday 28th & Sunday 29th April 2012

NOTICES:

This list of plants is derived from grower information supplied to the Growers Committee of the APS-SA prior to the **2012 autumn Plant Sale**. Due to circumstances beyond the control of the APS-SA, the supply of species and number of plants may not be valid at the commencement of the sale. Also, keenly sought species are depleted rapidly and there is no re-stock capability.

Most plants are in supplied in 75mm tubes and are priced at \$5.00, with a few (mainly grafted) plants at \$20.00 each. There are two category lists, according to price. A few of the plants may be available in more than one category list.

Use this list only as a **guide** to what will be available at the sale, accepting the conditions above.

Remember: the early buyer gets the best choices!

("Plant" is the plant number used in APSquery: use "Quick Search|Plant Number Search..." to view plant information.)

Final List: 13878 plants. 25/April/2012

This list is for 13702 plants in the \$5.00 category.
See Page 18 for \$20.00 categories.
