

# UPDATE

## Cropping strategies for 2010

Tuesday 2<sup>nd</sup> March 2010

Mungindi Hall, Mungindi

Registration from 8:30am, start 9:00am – finish ~ 3:30pm

Tony Cook

**Herbicide resistance** - drive down the seed bank and develop a plan. Tactics to manage herbicide resistant weeds.  
*Tony Cook (I&NSW)*

Steve Simpfendorfer

**Stripe rust** - should thresholds at Mungindi be the same as Moree or North Star? Management options for different varieties.  
*Steve Simpfendorfer (I&NSW)*

Guy McMullen

**Plant population** - when is it too low and need re-sowing? Yield impacts of population, varietal influences, deep sowing. Can some varieties compensate better than others?  
*Guy McMullen (I&NSW)*

Phillip Burrill

**Storing grain** - things you need to be across: Managing & avoiding high level resistance to phosphine: Grain protectants - a decreasing option?  
*Phillip Burrill (QPI&F)*

**Crown-rot** - new insights into its management and impact. Using the farming system to drive down inoculum load.  
*Steve Simpfendorfer (I&NSW)*

**Barley** - agronomic research - the fit & management of new varieties. Agronomy to optimise barley yield and quality - new varieties, canopy management, nutrition, sowing rates, dates & disease.  
*Guy McMullen (I&NSW)*

**Nematodes** - economic impact, identification of species and varietal, agronomic and rotational options.  
*Tim Clewett (QPI&F)*

**Direct heading vs. windrowing fababeans** - Economics and management.  
*Myles Parker (I&NSW)*

**Mustard** - mustard and canola in NNSW cropping systems - relative performance, economics, farming systems impact and potential  
*Don McCaffery (I&NSW)*

Tim Clewett
