

UPDATE

Cropping strategies for 2010

Tuesday 23rd February 2010

Nyngan RSL

Registration from 8:30am, start 9:00am – finish ~ 3:15pm

Pat Collins

Grain storage - Managing and avoiding high level resistance to phosphine; Grain protectant options.
Pat Collins (QPI&F) & Phillip Burrill (QPI&F)

Phillip Burrill

Does it really matter if my bucket is bigger than yours? How big is the average Nyngan soil bucket?
David Duncan (Sustainable Soils Management)

David Duncan

Fallow efficiency on red and black soils - What is deep stored soil water worth and how can a fallow be managed to store more summer rain?
John Kirkegaard (CSIRO Plant Industry)

John Kirkegaard

The economics of sowing decisions and limited soil water.
Howard Cox (QPI&F)

Howard Cox

Nematodes - patches in your crops explained; economic impact, identification of species and varietal and agronomic management options.
Tim Clewett (QPI&F)

Tim Clewett

Crown-rot - new insights into its management and impact. Using the farming system to drive down inoculum load.
Steve Simpfendorfer (I&INSW)

Steve Simpfendorfer

Seed treatments - seedling vigour and varietal effects in wheat and barley.
Rohan Brill (I&INSW)

Rohan Brill

Liquid fertilisers - how do they compare with solid formulations?
Col McMaster (I&INSW)

Col McMaster

Toward a better P nutrition package - diagnosing P status and methods to apply P to improve the reliability of response.
Mike Bell (QPI&F)

Mike Bell

Cost: \$45pp and \$40 for second person per farm
(Cheques payable to ICAN Pty. Ltd.)
