

# UPDATE

## Cropping strategies for 2010

Monday 22<sup>nd</sup> February 2010

Wellington Civic Hall (supper room)

Registration from 8:30am, start 9:00am – finish ~ 3:35pm

Col McMaster

**Liquid fertilisers** - how do they compare with solid formulations?

*Col McMaster (I&INSW)*

Dave Waters

**Carbon myths and reality** - building soil organic matter - whats it worth, whats possible and how is it achieved?

*Dave Waters (I&INSW)*

Tony Cook

**Herbicide resistance in annual ryegrass and wild oats** – Losing groups A and B, and the looming issue of glyphosate resistance - when acting early can be advantageous

*Tony Cook (I&INSW)*

Pat Collins

**Grain storage** - managing and avoiding high level resistance to phosphine; Grain protectant options.

*Pat Collins (QPI&F) & Phillip Burrill (QPI&F)*

Phillip Burrill

**Fallow efficiency on red soils** - how much water can my soil hold? What is stored soil water worth and how can a fallow be managed to store more summer rain?

*John Kirkegaard (CSIRO Plant Industry) & Col McMaster (I&INSW)*

### Canola

**Windrowing** - the impact of timing on harvest loss and quality.

*Kathi Hertel (I&INSW)*

### High oleic and other specialty purpose canola's.

Domestic and export market opportunities for higher quality canola oils.

*Peter Mac Smith (MSM Milling)*

**Dual purpose canola** - fit, agronomy, management and economics.
