TUNGSTEN CARBIDE TILE DRILLS

- > Designed to cut biscuit tiles fast, cleanly & economically
- > Also ideal for Ceramic Ware, Marble, Brick & Glass
- > All drill are supplied on hang cards with barcodes

**TUNGSTEN
CARBIDE TIP**

Product Benefit

Cut holes in 'pottery' clay tiles also marble, slate and other soft tile materials.

Once hole is made in tile then use suitable drill bit to continue cut ie standard masonry drill bit for bricks etc. this preserves the drill for tile cutting.

DIAMOND CORE (HOLESAW) DRILLS

- > Designed to cut hard tiles fast, cleanly & economically
- > Suitable for Biscuit Tiles, Marble Tiles, Granite Tiles, Porcelain Tiles & Ceramic Ware & Glass
- > All drill are supplied in clam shell packaging with barcodes

Product Benefit

Especially formulated for cutting clean holes in tiles including vitrified ceramic, marble, granite, slate, terracotta & various composites including resin and quartz.

Also may be used in fibre glass, compressed cement sheet products, brick, roof tile, faced chipboard/M.D.F. sheet materials such as Laminex™, melamine™, plasterboard. Concrete products containing stone aggregate and steel can also be drilled but with a reduced drill bit life span.

Who Uses it?

Tilers, Plumbers in ceramic tiles. Industry in fibre glass. Tradesmen such as Electricians, roofing carpenters in compressed cement board. Fixers when drilling through tiled surfaces.

What Power Tool?

Any standard power tool including battery.

SUPPLIED WITH ALLEN KEY

DIAMOND BLADES

- > Dymaxion Diamond blades are hot pressed.
- > Suitable for all types of Ceramic Tiles and Marble.
- > For best results run diamond blades at lower speeds.
- > All Blades are supplied in Carded Packaging.

CONTINUOUS RIM

Product Benefit

Use for cutting glazed ceramic tile products. The continuous and consistent rim helps to prevent chipping and flaking of the glaze on tiles.

Who Uses it?

Tilers.

What Power Tool?

Angle grinders and tile cutting bench saws

“CR” TYPE

Ideal for cutting
Marble

CONTINUOUS RIM DESIGN

11000 MAX RPM

ITEM	DESCRIPTION	PACK	RETAIL EX GST	BP40
DBCR100	DIAMOND BLADE 100MM CR	1	\$ 27.24	V1634

DBCR125	DIAMOND BLADE 125MM CR	3	\$ 56.65	V3399

TURBO RIM

Product Benefit

Use for cutting granite (stone) terracotta, cement based tiles, aggregate based tiles, baked clay products such as roof tiles (will also cut brick but with higher wear rate than DBS & DBT range)

Who Uses it?

Tilers

What Power Tool?

Angle grinders

“GU” TYPE

Ideal for cutting
Granite

TURBO RIM DESIGN

11000 MAX RPM

ITEM	DESCRIPTION	PACK	RETAIL EX GST	BP40
DBGUT100	DIAMOND BLADE 100MM GU TURBO	3	\$ 32.03	V1922

DBGUT150	DIAMOND BLADE 150MM GU TURBO	3	\$ 57.06	V3424

ELECTROPLATED

Product Benefit

A very versatile multipurpose cutting blade which will cut through a large variety of materials. Diamond coating extends the cutting life of the blade.

Who Uses it?

Tradesman

What Power Tool?

Angle grinders

Ideal for cutting
**Fibreglass
fibre cement
gyprock
roof tiles
polycarbonate sheet
+ much more**
