

## USB to Serial Port converter

It provides PCs, notebook PCs and handheld computing devices using USB an external PnP RS232 port

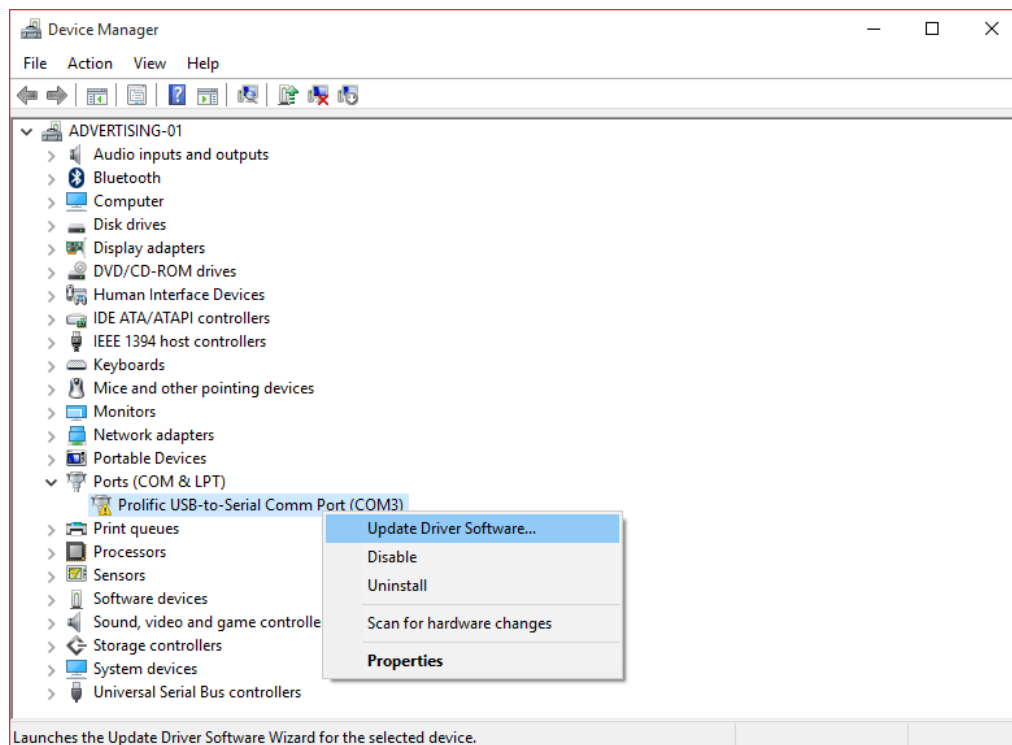

- Length: 45cm
- Supports the RS232 Serial interface. Full compliance with the USB Specification v2.0. Works with cellular phones, PDAs, digital cameras, modems or ISDN terminal adapter.
- OS Compatibility:
  - Windows 98, ME, 2K, 2003, XP, VISTA, 7, 8, 8.1, 10
  - Linux
  - Mac OS 8.6/9/10

### Note for Windows 8 and 10 Users

If you are on Windows 8, 8.1 or Windows 10, using the included CD, please make sure you install the following driver: "**Windows\Old Driver\Vista\_7\_8.exe**".

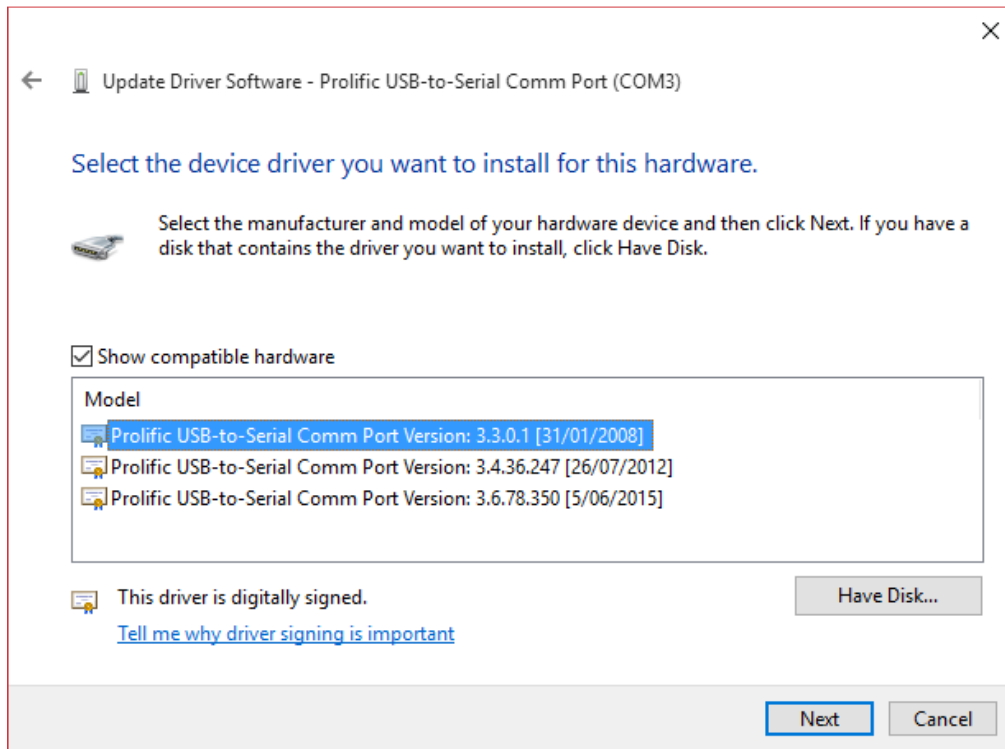

Windows 8 and 10 will still insist on using the newer dated versions available online, so you have to manually choose the "old" one. To do this,

1. Load up your device manager (Start key + X then M)
2. Note the Prolific driver with the exclamation mark and right click and choose "**Update Driver Software**"

3. Choose "**Browse my computer for driver software**"
4. On the next screen, choose "**Let me pick from a list of device drivers on my computer**"

5. Choose the 2008 dated driver!

6. Hit Next, and Windows will use the correct driver and the exclamation mark will disappear.

## USB to RS232

Part No. D2340 or USB-RS232 with USB-A plug, 45cm lead and DB9 male plug. See our website...
